Trade opportunities between US and India historic

MUMBAI: Trade opportunities between US and India are “historic” although there is a “re-examining of trading relationships” based on a look at new trading rules, the governor of Arkansas state in the US said in a recent interview. **Full [article](#)**

India can win big from inevitable \$350-550bn exports moving out of China

India could potentially be one of the big winners from the US-China trade war, according to a Credit Suisse survey of 100 companies with global sales of \$1 trillion that projects \$350-550 billion of exports will shift out of China and that this is "inevitable even if slow". **full [article](#)**

India's GDP growth to touch 9% by 2022-2023

Ace investor Rakesh Jhunjhunwala projected India's GDP growth to touch 9 per cent by 2022-2023. "If India heads to become a \$5 trillion economy by 2025, then household savings will have to go into equities," he said. He praised Prime Minister Narendra Modi and his work. "Modi is a distilled socialist after Lal Bahadur Shastri. **full [article](#)**

Duty Free Tariff Preference Scheme (DFTP) of Government of India

India announced the DFTP Scheme for Least Developed Countries (LDCs) in the year 2008. In order to expand trade with Africa, India amended its Duty Free Tariff Preference (DFTP) scheme to cover around 96 per cent of the tariff lines in April 2014. Only 1.8% tariff lines are under the exclusion list. Duty Free and Positive Lists cover about 98.2% of global exports of LDCs. Tanzania was the first LDC in Africa to convey its intention to join DFTP in June 2008. All formalities for the Scheme were completed and notified in 2009. Details of the DFTP Scheme are available on the following links:
