

World Coffee Conclave 2021

6th August 2021, 3:30 PM to 5:30 PM (EAT)

Indian Chamber of International Business (ICIB) in association with the **Coffee Board of India** will be organising the **World Coffee Conclave** (Virtual) on 6th August 2021 , 3:30 PM to 5:30 PM (EAT). This is the first initiative that will bring together global names of the coffee industry.

The leading markets for coffee **exports** from India are Italy, Germany, Russia, Belgium, Poland, Turkey, Kuwait, Jordan, USA and Australia. The total value is approximately 500 million USD in 2020.

The leading markets currently from where India **imports** coffee are Vietnam, Indonesia, Kenya, China and Cote D'Ivoire. The total value is approximately 70 million USD in the same period.

This gives a huge potential to both import and export coffee in India, in addition to processing it in India for further distribution to the world markets due to various favorable factors.

The High Commission of India requests the Tanzanian stakeholders dealing in coffee to register and participate at this World Coffee Conclave 2021 from the comforts of their homes/offices.

Participation is FREE for all delegates and there are no charges associated with the same.
